Rate Schedule

General Provisions

(Fee Calculation Methods, etc.)

1. The amount payable for fees or construction-related expenses specified in this fee schedule shall be the tax-inclusive amount set forth herein. However, fees or construction-related expenses payable pursuant to the provisions of the terms and conditions may differ from the amount calculated based on the tax-inclusive amount specified in this fee schedule (meaning the amount including the consumption tax equivalent; the same shall apply hereinafter).

However, this shall not apply to the fees listed in the following items:

（1） Fees for additional features related to overseas roaming functionality

（2） Fees for international calls

（3） Fees for sending international SMS messages (limited to call charges)

2. The Company shall calculate the following fees payable by the tt mobile subscriber under their tt mobile contract based on the billing month (for call charges where the call start and end dates fall in different billing months, the billing month shall be the one including the call end date): basic usage fees, additional feature usage fees, call charges, universal service fees, and telephone relay service fees.

However, when deemed necessary by the Company, charges may be calculated at any time based on a period separately specified by the Company, regardless of the billing month.

3. The Company may change the starting date of the billing month specified in the preceding paragraph when unavoidable for the performance of its business.

(Daily Pro-Rata Basic Usage Fee)

4. The Company shall prorate the monthly fees (hereinafter referred to as "monthly fees" in this paragraph) for the basic usage fee and additional feature usage fee based on the number of days used in the following cases:

（1） When the subscriber line or provision of the additional feature commences on a day other than the billing month start date.

（2） When the tt mobile contract is terminated or the additional feature is discontinued on a day other than the billing month start date.

（3） When the subscriber line or additional feature service commences on the billing month's starting date, and the tt mobile contract is terminated or the additional feature is discontinued on that same day.

（4） When the monthly fee amount increases or decreases on a day other than the billing month's starting date. In this case, the monthly fee after the increase or decrease shall apply from the date of the increase or decrease.

（5） When the monthly fee amount increases or decreases due to changes in the basic data

allowance or other aspects of the tt mobile communication service on a day other than the billing month start date. In this case, the monthly fee after the increase or decrease shall apply from the date of the increase or decrease.

(6) When the provisions of the table in Article 41 (Obligation to Pay Basic Usage Fees and Additional Feature Usage Fees), Paragraph 2, Item 3 apply.

(7) When the starting date is changed based on the provisions of Paragraph 3.

5. The prorated calculation of the monthly fee under the provisions of items 1 through 6 of the preceding paragraph shall be based on the number of days included in that billing month. In this case, when calculating the fee specified in the table under Article 41 (Obligation to Pay Basic Usage Fees and Additional Feature Usage Fees), Paragraph 2, Item 3, the 24-hour period serving as the unit for the day count shall be deemed to belong to the billing day on which the start time falls.

6. The prorated calculation of the monthly fee under the provisions of Paragraph 4, Item 7 shall be based on the number of days included in the revised billing month.

7. In the case of Article 56 (Limitation of Liability), Paragraph 2, when calculating the fee corresponding to the continuous period during which the service was completely unavailable, the provisions of Paragraphs 4 and 5 shall apply mutatis mutandis.

(Fractional Amounts)

8. In calculating fees and other charges, the Company shall round down any fractional amounts less than one yen.

(Payment of Fees, etc.)

9. tt mobile subscribers shall pay fees and construction-related costs at financial institutions or other locations designated by the Company by the date specified by the Company.

10. When designating a credit card as the payment method, the registered credit card must be in the name of the tt mobile subscriber.

11 Fees and construction-related costs shall be paid in the order in which their payment dates arrive.

(Lump-Sum Postpayment of Fees)

12 Notwithstanding the provisions of Paragraphs 9 and 10, the Company may, with the consent of the tt mobile subscriber, request payment of fees for two or more months in a lump sum by the date specified by the Company. However, if the monthly payment amount for the tt mobile subscriber falls below an amount separately specified by the Company, the Company may request payment of two months' fees in a lump sum by the date specified by the Company without the

subscriber's consent.This shall not apply if the tt mobile subscriber has previously notified us of their refusal to consent to this handling.

(Temporary Reduction or Waiver of Fees, etc.)

13. In the event of a disaster occurring or the risk of a disaster occurring, the Company may temporarily reduce or exempt fees and construction-related costs, notwithstanding the provisions of the Terms and Conditions.

14 When the Company reduces or exempts fees, etc. pursuant to the preceding paragraph, it shall publicize this fact by the method specified by the Company.

1-1 Applicability

(1) Types of tt mobile Communication Services

A. The following types of tt mobile communication services are available.

Plans	Details
A Plan	Communication service utilizing KDDI Corporation's network lines
D Plan	Communication service using NTT DOCOMO, INC. lines
S Plan	Communication service using SoftBank Corp. lines

A. The A Plan includes the following types.

Type	Details
Dual Type	Devices capable of both voice calls and data communication.

A. The following types are available for the Dual Type under Plan A.

Type	Details
Type 1 Dual Type	Any type other than Type 2 Dual Type
Type 2 Dual Type	Provided by establishing a telecommunications line between VOLTE-compatible terminals (meaning terminal equipment compatible with VOLTE).

E. The D Plan includes the following types:

Type	Details
Dual Type	Allows both voice calls and data communication.

O The S Plan includes the following types.

Type	Details
Dual Type	Allows both voice calls and data communication.

The following courses are available for the tt mobile communication service.

Plans	Details
Monthly Data Allowance Plan	A plan that provides a specified amount of data usage (hereinafter referred to as ″monthly data allowance″) available for use during the billing month.

Notes

1. Monthly Data Allowance refers to the data volume that can be used without being subject to bandwidth restrictions separately specified by the Company. If the data volume used in the applicable month exceeds the Monthly Data Allowance, communication speeds may be restricted. However, this restriction does not apply if the bandwidth restriction falls under the restrictions specified in Article 36 (Measures to Restrict Communication Usage), Paragraph 3.

2 . When a tt mobile subscriber uses the subscriber line to perform data communication, the communication volume shall be deducted from the monthly communication volume.

However, data usage for communications separately specified by the Company shall not be deducted from the monthly data allowance.

If the monthly data allowance is exhausted pursuant to the provisions of Section 3.2, the bandwidth for subsequent communications shall be the bandwidth separately specified by the Company, and communication speeds may be restricted.

4. The usage period for the monthly data allowance shall be until the end of the billing month following the billing month in which the monthly data allowance was granted.

Notwithstanding the provisions of Section 5.3, if data allowance is added via Appendix 1 (Additional Features) 1 (Data Allowance Add-on Feature), those provisions shall take precedence.

6. The Company may add monthly data allowance to tt mobile subscribers by methods separately specified by the Company.

7. For certain plans, data speeds may be restricted if usage exceeds the data allowance separately specified by the Company within a short period.

8. When using a KT SIM provided by the Company, the following Terms of Use at the URL below must be separately complied with: https://ttshop.jp/terms_of_service/

K. Monthly Data Allowance Plans include the following types:

Basic Data Allowance	Details
5GB	Monthly data allowance of 5GB.
10GB	Monthly data allowance of 10GB.
30GB	Monthly data allowance of 30GB.
50GB	Monthly data allowance of 50GB.

The following types are available for the tt mobile Business Course.

Basic Data Allowance	Details
10GB	Monthly data allowance of

	10GB.
30GB	Monthly data allowance of 30GB.
50GB	Monthly data allowance of 50GB.

※ Includes unlimited calling option.
